Our Analysis

Website Audit Summary - Dream House Cleaning Services Your website has a solid SEO foundation (81/100), but three key issues are limiting your visibility: your title tag exceeds recommended length by 11 characters, your meta description is 40 characters too long, and 3 images lack alt text—all factors that reduce search rankings and click-through rates from potential customers. These optimization gaps mean you're losing bookings to competitors who appear higher in local search results for "house cleaning in Al Khan" and similar queries. PixelForgeBD can quickly fix these technical issues, improve your local SEO presence, and help convert more of Sharjah's homeowners into paying clients.
