Our Analysis

Website Audit Summary for Final Touch Service Inc. Your carpet cleaning website scores well at 80/100, but it's missing HTTPS security—a critical issue that's actively costing you customers. Modern visitors see "Not Secure" warnings before trusting you with their home or payment information, and Google penalizes non-HTTPS sites in search rankings. PixelForgeBD can quickly implement SSL security, boost your SEO ranking, and restore customer confidence—turning those security concerns into competitive advantages that drive more local cleaning inquiries your way.
